FADE IN:

EXT. TUX'S YARD - DAYTIME

ON THE TELEVISION

NEWS ANCHOR

The Sara Space Agency, in partnership with Mandarava Motors is hosting a racing competition where the first place contestant wins a round trip to the stars! This is the first time we're hearing of S - S - A - O offering trips...

BACK TO SCENE

TUX and GNU hanging out in TUX'S yard. GNU is off to the side, hovering in the air, meditating. TUX'S kart is jacked up, off the ground. The engine is sputtering and TUX is walking around it, clearly confused.

TUX

I don't understand why it's not running right!

The kart coughs and dies.

TUX

Darn it!

GNU

(leaning in towards the sound)

Hmm... I think your valve timing is a little off.

GNU reaches behind him and pulls out a wrench, tosses it to TUX

GNU

Here, quarter turn left should do it.

TUX

(skeptical)

How do you know...? Never mind...

TUX walks to the back of the kart and starts making adjustments. NOLOK'S ship appears in the distance and very quickly stops over GNU'S head. NOLOK'S tractor beam shoots down around GNU. GNU peers up, not terribly concerned.

The tractor beam pauses for a moment and then the whole spaceship dips down and gobbles up GNU very quickly.

NOLOK then quickly jumps out of a hatch and stands on top of the spaceship.

NOLOK

Ahaha! I've got your friend now,
silly TUX! I'm bored and hungry and
GNU'S enlightened spirit will make
for a most delicious meal! I'll
think about letting him go if you
can beat me at a race though! But
good luck reaching my fortress!

NOLOK laughs maniacally as he slips back into his spaceship. NOLOK'S spaceship takes off into the distance.

TUX

Nooo!

NEWS ANCHOR

(on television)

...Don't forget to register for the
races! This could be your chance to
touch the stars! This has been the
news on channel...

TUX

(exclaiming at tv)

That's it!

TUX kicks his kart off the stands and the engine roars up, no problem. TUX jumps in and rides off into the distance.

(The SuperTuxKart logo appears from offscreen and holds for a few seconds)

FADE OUT.
